Dirk den Ouden, Global Technology Scouting Director for the Stora Enso Biomaterials division

Dirk den Ouden is the Global Technology Scouting Director for the Stora Enso Biomaterials division. Based in the Innovation Centre for biomaterials in Stockholm, Dirk is looking for new products and processes which will benefit Stora Enso in its transition to a renewable materials company. Before joining Stora Enso, Dirk worked in the bio-based industry as a new business developer for Avantium and Photanol and as an investment banker for Fortis (now ABN AMRO) and Kempen&Co. Dirk is a biomedical engineer by training, from Eindhoven Technical University.
