

## **CORPORATE VENTURE CAPITAL ENGIE**

**Hendrik Van Asbroeck, Director at Corporate Venture Capital Engie**

Hendrik Van Asbroeck is responsible at ENGIE to manage the corporate fund for participations in innovative companies and funds. He started working at Electrabel, GDF Suez as Account Manager and soon moved to Key Account Manager, focussing on the automotive and chemical industry. In 2007 he took over the responsibility of the Renewables department. In this position he created multiple joint ventures to stimulate Electrabel's green energy development.

In 2011 he was promoted to Head of Sales Electrabel, where he had to turn around the organisation to make it more efficient. When he left the job in 2014 the efficiency had improved by 30% and the sales results were again positive.

Before joining Electrabel Hendrik was Account Manager and Financial Analyst at Air Products Belgium.

Hendrik van Asbroeck holds a Master degree in Commercial Engineering from the K.U. Leuven University. He holds additional diplomas from the Vlerick Management School, the European Energy Institute and Insead-Cedep.
