

FLANDERS CLEANTECH INTERNATIONALISATION AWARDS

EPIGAN

INTERNATIONAL SUSTAINABLE IMPACT : In order to significantly contribute to energy losses reduction, EpiGaN offers industry-leading Gallium Nitride (GaN) material solutions, for replacing today-used Si electronics in a wide range of everyday power electronics applications. Power supplies, data servers, solar inverters, chargers for electric vehicles, RF power amplification for 5G or cable TV... are among the wide range of applications that show better energy efficiency, better performance, often associated to a drastic reduction of size and volume. EpiGaN's unique, state-of-art and cost-effective technology and its strong expertise are directly relevant to its global partners for developing solutions in Power, RF and sensors electronics.

ABILITY TO EXECUTE IN FUTURE – ENABLERS & INHIBITORS : EpiGaN signed in 2015 a global agent's sale agreement SunEdison Semiconductors (US- in the top 5 Si substrate manufacturer), which is representing our products worldwide. The support of a large industrial recognised supplier will help the company consolidating its export in the semiconductor industry, as well as enable EpiGaN to expand towards Asia. This expansion planned towards Asia will also be facilitated by A-Capital, a new investor in EpiGaN, whose strength lies in s strong knowledge of the Chinese market.

INTERNATIONAL MARKET TRACTION

Turnover – in EURO

Total turnover (EURO) in 2013	2.317.781
Total turnover (EURO) in 2014	1.574.758
Total turnover (EURO) in 2015	1.521.855

Geographical market(s) – in %

- Belgium	25%
- Europe EU – neighbouring countries (GE, FR, LU, NL, UK)	40%
- Europe EU – other	3%
- Europe non-EU	2%
- Asia	5%
- The Americas	25%
