

FLANDERS CLEANTECH INTERNATIONALISATION AWARDS

EUROPEM

INTERNATIONAL SUSTAINABLE IMPACT : Europem has consistently been at the forefront of technological innovation and today the company offers Best Available Technologies to provide sustainable, reliable, flexible and robust solutions that combine environmental protection and energy generation from industrial waste streams and effluents.

Europem's solutions virtually eliminate unwanted discharges from industrial processes, reduce the consumption of fossil fuels and associated CO₂ emissions and provide a financial and environmental payback. Its solutions are sustainable and also fully compatible with simple bottom-line thinking as well as multiple bottom line thinking.

Europem's solutions are important for the foreign market because they provide a solution to several challenges at once - environmental protection for industrial activities, generation of sustainable financial revenues from industrial assets and independence from unreliable energy supply or periodic shortages.

ABILITY TO EXECUTE IN FUTURE – ENABLERS & INHIBITORS : Key drivers are the increased awareness on environmental issues, increasing demand for non-conventional energy, climate change, closing-the-circle thinking. Success factors: Euopem provides "environmental pay-back solutions". Europem's success can be inhibited by international turmoil or recession however it will slow growth rather than eliminating it.

INTERNATIONAL MARKET TRACTION

Turnover – in EURO

Total turnover (EURO) in 2013	6.822.527
Total turnover (EURO) in 2014	7.980.527
Total turnover (EURO) in 2015	9.068.002

Geographical market(s) – in %

- Belgium	20%
