Henryk Karas

ETP Sustainable Mineral Resources Chairman (2006-2012)

Member of Mining Advisory Board at the Polish Ministry of Environment and Member of Industry Transformation Group at the Ministry of Development in Warsaw

Mr. Henryk Karas has been employed at the KGHM Polish Copper Company from 1972 to 2016 where he carried out his duties on many management positions in production and research units of the Polish copper industry (underground mining, mineral processing operations and RTD activity). He chaired the ETP SMR (2006-2012) and represented KGHM company as a member of Sherpa Group in the European Innovation Program on Raw Materials (2014-2016). In 2014 he was asked to establish "Robotics in Mining" Topic Group in the EU SPARC program. Now, he is a member of the Mining Advisory Board at the Polish Ministry of Environment and member of the

Industry Transformation Group created by the Ministry of Development in Warsaw.
