Johan Elvnert, Managing Director Forest-based Sector Technology Platform (FTP)

Johan Elvnert has been Managing Director of FTP since 2011, where he coordinates the European research and innovation efforts in the forest-based sector. He is responsible for the implementation and follow-up of FTP's Strategic Research and Innovation Agenda 2020 for 2020 (SRA), including the sector's ambition of increasing by 30% its sustainable harvesting possibilities in Europe. On behalf of FTP, Elvnert has been serving as a member of the European Bioeconomy Panel since its first assignment period.

Johan Elvnert is a Swedish national and has a Master of Science in Molecular Biotechnology Engineering from Uppsala University, School of Engineering.
