

FLANDERS CLEANTECH INTERNATIONALISATION AWARDS

TROTEC

INTERNATIONAL SUSTAINABLE IMPACT : Trotec developed a unique technology that allows to transform former foodstuffs into a raw material for the feed compound industry. This technology prevents food losses and keeps ingredients into the food chain. Trotec is unique in Belgium, and started 2Q2016 a complete new factory in France, with the purpose of becoming also leader in France.

ABILITY TO EXECUTE IN FUTURE – ENABLERS & INHIBITORS : Everybody agrees that we should take care of our raw materials. The European commission works hard on programs to prevent food losses. The activity of Trotec gives a clear answer to this challenge. Trotec gives a new life to food losses by making a new ingredient.
